Remember, that in Northwest Alexandria you have all of the combined comforts of city and suburban life. The lots are being purchased by the most prominent merchants and real estate brokers in Washington. There is no better evidence of their value. Sixty daily trains connect Northwest Alexandria and Washington, the time consumed is only twelve minutes and the fare but 6 cents. Our wide avenues are a marvel of beauty. Twenty-five thousand dollars have been spent upon street improvements alone. All Washington is visible from the high hills of Northwest Alexandria. The ARLINGTON, ALEXANDRIA AND WASHINGTON ELECTRIC RAILWAY will pass through our property and Mount Vernon avenue is continued through our streets.

THE ADVANTAGES OF THE DALY cold-timed Rubber Dental Flates over all plates ever invented are manifold. It combines the cool qualities of rubber and kold at reasonable prices. It destroys the odor so perceptible on the breath of people wearing rubber, due to the saturated condition of the rubber with decomposing materials. Dr. Kulp, before the American Dental Association, said the health of three-lourths of the popple were affected by them; gold-lined plates cure and prevent disease; don't wat until you are affected; any plate can be lined with sold; all Washington dentists are making these plates; endorsed by the dental and medical profession; refer you to such entinent physicians for their opinion as Drs. POLITICAL ACTIVITY.

Both Parties Engaged in Perfecting Their Organization-The Ohio Campaign. There has probably never been a time so remote from the date of a national election when both political parties have been as active as they are now. > GORMAN NOW THE MANAGER. A great deal of work is being done which the public know nothing of. The democratic

national committee is working with the national association. Calvin S. Brice as chairman of the national committee has been directing the work of the national association, but he is going to Europe, and at a conference held in New York a day or two ago it was decided to place the management of the party organiza-tion in the hands of Mr. Gorman, who, in an advisory capacity, is directing the work of the

national association.

It may be a significant fact for those who are has authorized the Packers' National Bank of trying to figure out what attitude Mr. Cleve-South Omaha, Neb., to begin business with a land stands in with relation to Mr. Gorman and the national organization of the party that the ex-President is consulted about all important matters relating to the coming national campaign. Friends of the two men say that there is not the least friction or antagonism between Gorman and Cieveland. They are frequently in consultation, understand each other and each

will support the other in party work.

were much exercised. There are a number of dwellings in the vi-cinity of the armory, the occupants of which were for a time terror stricken. They left their apartments and did not return until the fire was under control. The members of the regiment had 300 uniforms and their arms in the armory, all of which were lost. There were twenty boxes of ammunition in the

armory. These were saved. The stores leased from the armory were of a miscellaneous character—cafes, real estate agents, oyster shops, eigar stores. Their individual losses are comparatively small. Geo. Morgan, dealer in fine furniture, estimates his loss at \$20,000. The regiment's loss, together with the of the comparative is always at \$20,000.

Sioux valley, along in the morning. There we were told that we could go no further on account of washouts in Maple river, and started back for Sioux City. When we reached a point a mile or so this side of Hornick a flash of lightning revealed a sea of water on the tracks, and further progress was impossible, so we ran back to Hornick. The train is still there with crew and twenty-three passengers, and no prospect of getting out for a couple of days. The track in the Sioux valley, from what we could gather from meager reports, is out, and at 2 o'clock Thursday afternoon the water at Bodney was still rising at the rate of four inches an hour.
